PRODUCT LEADER | REVENUE GROWTH & MARKETPLACE STRATEGY

B2B SaaS · Marketplace Platforms · AI Product Development · Experimentation Strategy · 0-1 Product Development

SUMMARY

Product leader driving growth, monetization, and marketplace strategy across large-scale digital platforms. 20 years of experience scaling revenue-generating products across real estate, health tech, mobile, and media in regulated and high-growth environments. Owned \$14M+ SaaS portfolios, delivered over \$1M in annual incremental revenue through experimentation-led conversion strategy, and expanded SEO-driven inventory by 100K+ units. 10 years of hands-on Optimizely experience building and running A/B testing programs at scale. Leverage AI tools daily in product discovery, prototyping, and feature development.

EXPERIENCE

Senior Product Manager

Bold · 2026 – Present

Founder & Product Manager

Product Spark Studio LLC · 2026 – Present

- Founded Product Spark Studio LLC, an AI-first product studio; established the company brand and digital presence at productsparkstudio.com using Claude/Cowork, Codex, and Midjourney; designed and operate a structured AI-assisted development system with specialized roles across discovery, requirements, engineering, QA, and release management where humans make all product decisions and AI scales execution.
- Building Prayer Table, a cross-platform React Native/Expo community prayer app (iOS and Android, beta) with UGC feed, anonymity controls, and content moderation; own the full product lifecycle from strategy and UX through implementation, trust and safety, and store-readiness.
- Built CareerOS, a structured AI-assisted career management operating system with 10 named workflows covering job-fit evaluation, materials tailoring, interview prep, and post-outcome review; active in production across 30+ opportunities over 6 months.
- Led end-to-end website and brand modernization for Home of the Hangover (specialty bottle shop, Big Bear Lake, CA) using an AI-first workflow across strategy, branding, content, and development (ChatGPT, Claude Code, Cursor, Midjourney); implemented GA4 with custom CTA tracking and recommended deferring e-commerce after behavioral data did not support the investment.
- Conceptualized, designed, built, and deployed a personal AI product portfolio as a comparative experiment in AI-native development across ChatGPT, Lovable, Codex, and Claude Code from prototype to production; managed through Git/GitHub and deployed via GitHub Pages.

Senior Product Manager – Conversion & Growth

Redfin | Rent.com, ApartmentGuide.com & Redfin Rentals (Rocket Companies) · 2024 – 2026

- Owned lead quality and conversion strategy across three rental marketplaces (Rent.com, ApartmentGuide.com, Redfin Rentals), covering high-volume renter acquisition funnels serving marketplace partners.
- Redesigned lead capture contact forms and photo gallery experience on web, iOS, and Android through A/B testing, driving conversion improvements with an estimated \$1M+ annual revenue impact.
- Led Building Pages and Off-Market Pages initiatives, unlocking 100K+ previously suppressed condo listings and creating new SEO-ranked inventory pages to boost organic rankings.
- Configured Optimizely for rental marketplace teams, defining exclusion logic, key metrics, and guardrail metrics across experimentation programs.
- Integrated Rent.com and ApartmentGuide.com experiment reporting into Redfin's RIFT/REF platform, enabling product, design, and leadership teams to access A/B test results without analytics support.
- Partnered across Engineering, Design, SEO, Analytics, Legal, and Marketing to ship roadmap initiatives tied to revenue targets.
- Defined AI opportunities across rental search, personalization, listing comprehension, and post-lead recommendations; prototyped conversational search summaries to help renters evaluate properties faster.

Director of Product Management

CINC — B2B SaaS platform serving real estate agents and brokerages nationwide · 2017 – 2024

- Led three product teams (Consumer, Mobile, Ad Tools), owning a \$14M+ revenue-generating SaaS portfolio serving real estate professionals nationwide.
- Owned the CMS platform powering 3,500+ branded consumer websites, managing design systems, content templates, and AI-generated content to improve quality and reduce onboarding time at scale.
- Launched RealVerified Leads (70% verification rate), significantly improving lead quality and agent trust.
- Delivered Lender Pro as sole PM, a new mortgage-focused product vertical built 0-to-1, generating \$1M+ in recurring SaaS revenue.
- Launched Cash Offer Leads ad product, generating \$100K in new ad revenue at launch with \$30K in ongoing recurring revenue, facilitating partnerships with Opendoor and Offerpad.
- Redesigned homebuyer-facing Listing Details and Registration experiences, improving clarity and confidence through the selection journey and driving a 22% increase in contact rates.
- Revamped seller lead experience with Homepulse, driving 5% increase in seller lead conversion and 12% increase in contact rates.
- Partnered with the CRM Product Manager and cross-functional team to launch an AI-driven SMS nurturing platform powered by proprietary lead data, using NLP and automated workflows to increase appointment rates by 25%, an early example of AI-powered recommendation and decisioning at scale.
- Built a product-led growth culture across teams, establishing experimentation frameworks that tied A/B test results directly to revenue, engagement, and conversion outcomes.
- Used Optimizely as the primary experimentation platform for 8 years across Consumer and Mobile product teams, evaluating and selecting it over Adobe Target based on fit for product and marketing use cases.
- Mentored and developed product managers and designers, several of whom advanced into senior leadership roles.

Senior Product Manager

AT&T · 2016 – 2017

- Owned requirements and functional specifications for integrating DirecTV, AT&T Home, AT&T Internet, and AT&T Business into the enterprise order management platform.
- Selected to represent Order Management in overseeing cross-team releases, ensuring minimal disruption to operations.

Senior Product Manager

BioIQ · 2015 – 2016

- Owned Screen product line, a \$3M book of business covering biometric health screening programs across onsite services, at-home kits, retail pharmacy, and lab networks for employer clients.
- Expanded platform to nationwide coverage by integrating Kroger, Publix, Walmart, CVS, IH21, Alere, eScreen, and Cardinal Health; achieved 90% flu shot participation among enrolled employer populations.
- Led ICD-10 compliance migration, ensuring on-time transition and avoiding financial or operational penalties from non-compliance.
- Set partner integration requirements to meet quality standards and federal data compliance obligations across a regulated healthcare environment.

Senior Product Manager

Cox Digital Exchange · 2012 – 2014

- Helped grow DealerMatch, a B2B digital marketplace for auto dealers, from 12 paying members to 1,500+ and from \$0 to \$1.3M+ ARR in under two years.
- Launched mobile auto auction app, driving a 40% increase in vehicle transactions and growing mobile penetration to 40% of overall platform activity.
- Built a vehicle search API normalizing diverse OEM vehicle feeds, which became the backbone of the platform's matching and inventory infrastructure.

Mobile Product Manager

The Weather Channel · 2010 – 2012

- Product Owner of the iPad platform, described at the time as the 2nd most downloaded application in the world.
- Product Owner of domestic and international mobile websites serving 2.6B page views per year and 22M monthly unique users; led the 2011 full redesign across all mobile web surfaces.
- Conceived and launched the industry's first weather-triggered mobile ad unit, securing \$5M in ad spend from Burberry.
- Led global mobile website relaunch across 27 languages, growing mobile traffic by 150%.
- Delivered live weather tile preloaded on all devices for Microsoft Windows Mobile OS launch; Microsoft designated The Weather Channel a premier partner.

Head of Production / Mobile Product Manager

2ergo Americas | National Geographic | Kajeet | Buongiorno · 2004 – 2010

- National Geographic: Launched inaugural iPhone app, garnering 100K downloads in year one; introduced digital content storefront, creating a new mobile revenue stream.
- 2ergo: Directed Fox Soccer Channel 'Ticket to South Africa' World Cup iPhone app, 50K downloads in first month; relaunched Food Network mobile site, driving 25% traffic increase.
- Kajeet: Launched a digital content storefront across web and mobile, targeting the tween and teen demographic, designed acquisition campaigns to drive downloads and engagement, and partnered with the executive team to develop text and calling plans tailored to youth subscribers.
- Buongiorno: Managed global digital content marketplace across 12 international markets, including the UK, Spain, France, Italy, and Australia.

MILITARY SERVICE

U.S. Marine Corps veteran, served from 1992 to 1997 as a Field Radio Operator (MOS 2531), primarily assigned to intelligence companies.
