SENIOR PRODUCT MANAGER | DIRECTOR OF PRODUCT

AI Product · Marketplace · Conversion and Growth · Mobile · B2B SaaS · Real Estate Tech · Experimentation at Scale

SUMMARY

Senior Product Manager and product leader with 20 years building consumer-facing digital products across real estate tech, rental marketplaces, mobile, B2B SaaS, healthcare, automotive, and media. Shipped AI-powered features before generative AI was a product category. Owned conversion and experimentation programs at scale, delivering over \$1M+ in annual revenue impact. Led three product teams across a \$14M+ SaaS portfolio. Equally effective as a director-level team lead and a hands-on, outcome-accountable IC. Ten years of Optimizely at scale. Daily AI tooling practitioner building applied workflows and prototypes.

EXPERIENCE

Senior Product Manager, Conversion and Growth

Redfin | Rent.com, ApartmentGuide.com and Redfin Rentals (Rocket Companies) · 2024 to 2026

- Drove an estimated \$1M+ annual revenue impact by redesigning lead capture contact forms and photo gallery experience across three rental marketplaces on web, iOS, and Android through A/B testing.
- Led Building Pages and Off-Market Pages initiatives, unlocking 100K+ previously suppressed condo listings and creating SEO-ranked inventory pages that improved organic rankings and renter discovery.
- Configured and governed Optimizely for rental marketplace teams: exclusion logic, guardrail metrics, and experiment reporting integration.
- Defined AI product strategy across rental search, personalization, and post-lead recommendations; prototyped conversational search summaries to help renters evaluate properties faster.
- Integrated experiment reporting into Redfin's internal A/B testing platform, enabling product, design, and leadership teams to access results without analytics support.

Director of Product Management

CINC · 2017 to 2024

- Led three product teams (Consumer, Mobile, Ad Tools), owning a \$14M+ SaaS revenue portfolio serving real estate professionals nationwide.
- Partnered with the CRM Product Manager to launch AI-driven SMS nurturing, contributing to a 25% improvement in appointment rates.
- Delivered Lender Pro as sole PM from 0 to 1, building a new mortgage vertical from concept to \$1M+ in recurring SaaS revenue.
- Launched Cash Offer Leads, generating \$100K in new ad revenue at launch and \$30K in ongoing recurring revenue through Opendoor and Offerpad integrations.
- Launched RealVerified Leads with a 70% phone verification rate using NLP-based verification.
- Drove a 22% increase in contact rates by redesigning homebuyer-facing Listing Details and Registration experiences.
- Lifted seller lead conversion 5% and contact rates 12% by revamping the seller lead experience with HomePulse.
- Owned CMS platform powering 3,500+ branded consumer websites, including AI-generated content pipelines.
- Built experimentation culture using Optimizely for 8 years; mentored PMs and designers, several advancing to senior leadership.

Senior Product Manager

AT&T · 2016 to 2017

- Owned requirements for integrating DirecTV, AT&T Home, AT&T Internet, and AT&T Business into the enterprise order management platform; selected to oversee cross-team Order Management releases.

Senior Product Manager

BioIQ · 2015 to 2016

- Owned Screen product line, a \$3M book of business covering biometric health screening programs through onsite services, at-home kits, retail pharmacy, and lab networks.
- Expanded platform to nationwide coverage by integrating Kroger, Publix, Walmart, CVS, and Cardinal Health; achieved 90% flu shot participation among enrolled employer populations.

Senior Product Manager

Cox Digital Exchange · 2012 to 2014

- Launched mobile auto auction app, driving a 40% increase in vehicle transactions on the marketplace.
- Built vehicle search API normalizing diverse OEM data feeds for real-time search across the Dealermatch platform.

Mobile Product Manager

The Weather Channel · 2010 to 2012

- Product Owner of the iPad platform, one of the most downloaded applications in the world at the time.
- Conceived and launched the industry's first weather-triggered mobile ad unit, securing \$5M in ad spend from Burberry.
- Led global mobile website relaunch across 27 languages, growing mobile traffic by 150%.

Earlier Roles: Zergo Americas | National Geographic | Kajeet | Buongiorno

2004 to 2010

- National Geographic: Launched inaugural iPhone app (100K downloads, year one); introduced digital content storefront.
- Zergo: Fox Soccer Channel World Cup mobile app (50K downloads, first month); Food Network mobile site relaunch (+25% traffic).
- Kajeet / Buongiorno: Youth mobile carrier digital storefront; digital content marketplace across 12 international markets.

AI TOOLS AND APPLIED WORKFLOW

- Built CareerOS, a personal AI-powered career management system using Claude, structured prompting, and markdown-based workflows.
- Built Prayer Request, a React Native mobile app targeting iOS and Android, applying 0-to-1 product and engineering judgment with a planned beta path to App Store and Google Play.
- Led AI-assisted site refresh for Home of the Hangover, a craft beer and spirits shop, using Claude Code and Cursor to build a mobile-first static site with GA4 event tracking.
- AI tools in regular use: Claude, Perplexity, ChatGPT, Cursor, Figma.

MILITARY SERVICE

U.S. Marine Corps veteran, served from 1992 to 1997 as a Field Radio Operator (MOS 2531), primarily assigned to intelligence companies.
